Music + lyrics: Schlachter

We're getting closer th the final phase

You better do what you can

No you won't stand the chance to win the race

You better leave 'cause I'm the man

I know you think you nearly got it made

I think you life in a daydream

There's no way out

I'm gonna give you a nightmare

You get a lesson that you never forget

You're turn is over (repeat 4 times)

Think I better keep an eye on you

'Cause you're a liar that's whayt you can do

I'm gonna take you down to hell

And I don't care just what you do or say

You find yourself in the dead end, there's no way out

Poor pityful bastard, your turn is over

And I'm finished wittt you

Your turn is over (repeat 4 times)

Solo Dirk

I'm feeling free - you can't stop me

You can't hold me - I'm so restless

So you think you can escape your fate

Tell me sucker it's too late

So I know you gonna make my day

So you think you can save your life, if we are gonna
wreck for you

Better look at your size, you're nothing more than a
little pos

It doesn't matter what you do, I know I'm comin' over
you

You haven't got a single clow

Your turn is over I'm finished with you

Your turn is over (repeat 8 times
