Time is at hand to let you know how the punishment will  
feel  
It is going to be severe  
Your face will no longer be your own I will smash it to  
the ground  
When I'm done you will obey

Raise my hand and clench into a fist to let it strike your  
face  
Ruthless  
Relentless  
Brutal  
Turn your face  
Just a bit  
Just to get  
A perfect view

Let my fist fall hard and clean I can feel it landing  
I feel supreme  
Start to  
Gristle  
With my  
Teeth  
Once again  
I raise  
My hand  
Hear the bones crush,  
Keep on  
Striking  
Hard

Scream out loud from the pain  
Motherfucker is vomiting blood  
Quiet moaning  
Disturbing sounds  
I want this to be done with style  
I want to show this fucker the meaning of powerful  
suffering

I can see a little spot on the jaw I just punched in  
That I

Must have  
Missed  
Intolerable  
Inexcusable  
Rapid massive angry  
I correct  
My Mistake

What I feel  
Can be described  
As pride  
My work is done  
I stand aside  
I have not left  
A single spot  
Unmarked  
What used to be  
A pretty face  
Is now  
All fucked up  
Messy as hell

To finalize this degradation  
Piss starts pouring  
On his wounds

Time is at hand to let you know how the punishment will  
feel  
It's going to be severe  
Your face will no longer be your own  
When I'm done  
You will obey
