Looking for a friend from years ago  
He used to come with us to every show  
Always had the time to hang with us  
We knew he was someone we could trust  
Where has he gone, where has he been  
I just can't stop wondering  
I would dive in the crowd, and he would pull me out  
If the club wouldn't pay, he'd scream and shout  
Making sure we were at the shows on time  
If you came late, you were left behind  
Where has he gone, where has he been  
I just can't stop wondering  
I'm looking for someone I used to know:I need to know  
I'm looking for someone from long ago:I need to know  
Where has he gone, where has he been  
What has he done, I need to know  
So I can find my piece of mind  
I need to know so I can stop wondering
