"Together We Fly!"

out on the street chasing adventure
out in the street ready to stand and fight
running free i'm dragon thunder
running free the world has gone insane

being bad but never being bored
being bad never felt so good to me
with you by my side
together we fly
stealing stars from the sky
fly----ing----high----er
fly----ing----high----er

fly----ing----high----er
fly fly-----high-----er

in the air tonight electric sparkle
in the air tonight something quite magical

out on the street chasing adventure
out in the street ready to stand and fight
running free i'm dragon thunder
running free the world has gone insane

being bad but never being bored
being bad never felt so good to me
with you at my side
together we fly
stealing stars from the sky
