Look around help me out
breaking up breaking down
take a man and leave him on a mission
take a man and leave him on a shelf
take a man and leave him on a mission
take a man and leave him by himself
all around in my sight
back to back side to side
all around in my sight
back to back side to side
going down half the time
close my eyes there's no sound
take a man and leave him on a mission
take a man and leave him on a shelf
take a man and leave him on a mission
take a man and leave him by himself
all around in my sight/ back to back side to side
all around in my sight/ back to back side to side
life me up help me out/ lost control going down
take a man and leave him on a mission
take a man and leave him on a shelf

take a man and leave him on a mission

take a man and leave him by himself

all around in my sight/ back to back side to side

all around in my sight/ back to back side to side

all around in my sight/ back to back side to side
