I am

you will recover when you discover baby

there is no other when you recover baby

and when the mood is right you'll get it every night

go on and play it like your on the other side

you're beautiful, it's all or me

you're beautiful, it's me

I will let you, I will let you down

into another don't run for cover baby

there is no other into another baby

and when the time is right

I got you in my sight

I'll reach into your life and look around inside

you're beautiful, it's all or me

you're beautiful it's me

I will let you, I will let you down x2

you're beautiful, it's all or me

you're beautiful, its me

I will let you, I will let you down x2
