a thousand U.S. dollars on a mountain of speed

no need to know my whereabouts, cause you get what
you need

I love it when you come around & I love it when you find
me gone

no time to think about can't save us from a sword

I love it when you come around & I love it when you find
me gone

well tell ya damn right so don't tell me that I'm wrong

Tap, Twist, Snap x2

you see a nation of zeros, you bring us to our knees

and now you killed all our heroes, you'll get the dent
you can see

I love it when you come around & I love it when you find
me gone

no time for cuffs tonight gonna wake up to the sun

I love it when you come around & I love it when you find
me gone

in a car without headlights let power lead us on

Tap, Twist, Snap x2

I'm gonna drink tonight lets go out drinking

were gonna get it right no time for thinking

were gonna drink tonight lets go out drinking

spend all our cash tonight lets go out drinking

Tap, Twist, Snap

so you can call me a failure, and you know I'm a freak

but now its time for some payback, raising up with the
weak

I love it when you come around & I love it when you find
me gone

no time to think about can't save us from a sword

I love it when you come around & I love it when you find
me gone

well tell ya damn right so don't tell me that IM wrong

Tap, Twist, Snap x2

IM gonna drink tonight lets go out drinking

were gonna get it right no time for thinking

were gonna drink tonight lets go out drinking

spend all our cash tonight no time to think

Tap Twist Snap x4
