"I know how it works
I know how it works
I know how it works
I know how it works
I know how it works

Code error 1247 dash 1RT7
Error
Error"

I'm not quite sure of what's happening here
I wish I was aware of the situation
Unfortunately

Now I've got this vendetta
And more reasons to hate everyone again
Get me out of here before I implode

I wish I could sprout wings
Fly away from all this wreckage
Eat acid for 100 years
Traverse the skies
Not caring about all that shit
Down there
On the ground

You do
You do
You do
You do
You make me like this
You make me like this
I don't want to be this way

It transcends my nerves
And rips apart my soul
To give it a rest
But it has to be done

"Code error 1247 dash 1RT7 has been resolved.
All systems reactivated"

Do we feel alive today
Do we feel alive today
We do
We do
