It's funny how toothless and useless you really are
Send you no flowers just cauterize all of your scars
Bitch for an hour how nobody feels you're their friend
Obsess about how you'd like your life to meet an end

My fangs and your flesh
Mangled together
I applaud your survival
Your love for the suicidal

Well you ramble of bloodlust and how you think you're
insane
Then you complain how it's strange that you get off
from pain
Decorate your dress with razor tears and cigarette
burns
Now you take the wheel and I'll take the stranger turns

My fangs and your flesh
Mangled together
I applaud your survival
Your love for the suicidal

If you're a freak then I'm one too
I don't really know anymore
Yesterday I seemed so much more
Humane

My fangs and your flesh
Mangled together
I applaud your survival
Your love for the suicidal
Your love for the suicidal
Your love for the suicidal
You like it when it kills you
You like it when it kills you
