Lethal frowst - paternal ravish is obvious
Body juices, hard nipples... lascivious
Addicted to his beautiful daughter
The start of an inspired slaughter

Nip off her ears with a pincer
Lap up the slimy blood-slush
Smooching with her while screwing the rear
Pierce her uterine-tract until it's mush

Fingers get pinned in a vice
Slowly removing her scruffy fingernails
Scurilous blood-broth suffuses the ground
Vaginal skin scattered all around
Shaving her black pubes... followed by
A last screw from behind
Starting the lawnmower rumbustiously
Shanks & arms no longer in function

Ecstaticaly consume her blood-red genitals
Chewing her wounds & offals

Hook the rest of the body
Exchange his clothes against an apron
Smell of cooked, simmered flesh
Serving her for dessert, garnished with bacon
