Stench of decay spreads in the air  
Faccal bespattered bodies cold & bare

A passionate undertaker exhibits his darned corpses  
Decorated dainty - pictures of distress

A cleaver sticks in the costal bones  
Palatable ordure of a palid body  
Habit forming nosologic interest  
Fragrant numb victuals to digest

Clip his prepuce, skin the scrotums totally  
Using the turgid cock anal, as usual  
A friend of him visited the mortuary  
A kook, keen to watch this lunacy

He consumed the undertakers regurgitations  
While nourishing on a meager creature

Provided with surgical instruments  
Exquisite supper of excrements

Lonely obsequies for a vacant coffin  
(Atrocious) gratification for a (prurient) voluptary

Pasty mulligan exquisite  
An obese creature to hash  
With mayonnaise decorated  
Lunch of human flesh

Tender flesh... on the bier
