Nothing has changed
No matter the time we've been apart
I still love you
And I will never give up

It's funny girl
I count the days to meet you again
I'll have to wait
No matter what they say or do

If only I could tell you all the feelings inside me
If only I could take your hand and go out for a stroll
It would be magic (magic)
Magic

I can't stand
Living my life without you dear
What can I do ?
I'm really feeling down again

It's getting to the point I cannot hide my tears no more
There's nothing I can do but wait so patiently for you
It will be magic (magic)
Magic

Please tell me why I can't help thinking of you
Throughout the day and night
Still wonder why I didn't realise
You were drifting away from me

Listen to me
My heart will never forget you
I'm not to blame
I'm just a jealous guy, you know

One day I'll have to overcome the fears inside my soul
And then be able to take care of you eternally

I must be stronger now
'Cause when I see your face again
It will be magic (magic)

Magic

Please tell me why I can't help thinking of you
Throughout the day and night
Still wonder why I didn't realise
You were drifting away from me (from me)
From me
