Turn the radio on and you'll realise
There's a brand new beat coming all around
And the people dance all over the world
This is what you were waiting for

Everything has changed nothing is the same
You will sense the rythm going down your feet
No one can stop what is happening
It's time for us to enjoy ourselves

Let's go around to have some fun
The sun is shining up in the sky
There's no need to worry at all
It's gonna last so long

Hurry up at once and just go downstairs
Walk out down the street and you'll see no doubt
It's so crowded that you can hardly move
But there's good music in the air

And when you look at people's eyes
You'll see that everybody's glad
It's really like a brotherhood of men sharing this crazy
world

(solo)

Let's go around to have some fun
The sun is shining up in the sky
There's no need to worry at all
It's gonna last so long

Is it just a dream or a movie's being shot
It doesn't really matter 'cause I feel so fine
I will carry on dancing till dawn comes
And then I'll stare at all the stars

Just hold my hand and then relax
We're feeling like in paradise
Close your eyes and dream a bit
Nothing can compare to that

Just hold my hand and then relax
We're feeling like in paradise
Close your eyes and dream a bit
Nothing can compare to that at all
