afraid of faces by Of No Avail

Do you fucking think you know what you say

When you talk about everyone that's in your way.

Behind their backs, you're so good in that,

Just so afraid to say it face to face.

Everyone talks but when it's only shit face

The thing you call disgrace: their fucking face.

Talking to people like they're your fucking friends.

They turn around and you spit out they're the ones

You can't stand big hero, you're fucking zero,

Weak and afraid.

That guy's an asshole but when he's around

He's fucking great don't think you know what you say.

When you talk about everyone that's in your way.

Behind their backs, you're so good in that,

Just so afraid to say it face to face.

Everyone talks but when it's only shit face

The thing you call disgrace: their fucking face.

A afraid to face it. afraid of faces.
