All the words that i say,
thoughts developed in my head.
By the time that they're halfway,
they'll just mean something else instead.
Why can't you listen up so that we,
can then be sharing thoughts and become free.
A message should be received obviously,
but words are weak. It's how you speak them!

interaction
all thoughts you think don't make the
message that i hear 'cause you use words
in a different way, without there's nothing left to say

thought projection
though the words are not the ones that
you would like to hear they are the truth,
don't hold them at bay
without there's nothing left to say.

The difference in men divides them in me and you
opposites condemn, but communicate they do
why can't people listen so that they
can then be sharing thoughts and see the way
unity has been comuniqueu, but words they fail
but we still speak them!

interaction
all thoughts you think don't make the
message that i hear 'cause you use words
in a different way, without there's nothing left to say

thought projection
though the words are not the ones that
you would like to hear they are the truth,
don't hold them at bay
without there's nothing left to say.

When talking, say what you wanna say
but know that a message will be on it's way
'cause people don't always mean the same thing

with the same ... words!

Interaction...

Without there's nothing left to say
there is nothing left to say.
