I see the angels arrive

V1:

Ive Seen all types of places  
Ive seen so many faces  
Ive witnessed deadly races  
So many different phases of life  
This situation makes me sick  
Manipulated by an unknown demon  
Cant find a way to get on track

REF:

Got Nowhere to turn  
Got nowhere to go  
Nowhere to find my pieceful mind  
Theres nowhere to say  
Theres nowhere to run  
Nowhere to find my pieceful mind

V2:

My Bitter Rhyme  
My Lullaby  
Salvation within reach  
Cant stretch myself  
Manipulated by an unknown demon  
Cant find a way to get on track

I see the angels arrive  
Come sweet relief  
I see the angels look my way  
come sweet relief
