Flimflam, manipulating all the sources
Brains are flying on and away
Living in swindle
Eventually believing its true
All senses going away
Realness becomes its face

Pretending to be the communist
Taking use of persons life
And suggest to be the robin
In the fucking hood

Gather all your troops
Its time for camp
Put all these guys together
Make them suffer

Pretending to be the communist
Taking use of persons life
And suggest to be the robin
In the fucking hood

Gather all your troops
Its time for camp
Put all these guys together
Make them suffer

Please just come here and kill me
