Never knew where to go
Never used to go to at night
Thinking but I didn't know
Never could seem to get it right
But I've made up my mind
Yeah I've made up my mind

I wanna feel important
I wanna feel alive
Don't talk to me
Don't talk to you
You know I'm lying
You know the truth

Yeah, I'm on a Mission From God
It sounds kinda crazy but I like it a lot
I'm an answer to the man up above
It's me he's speaking of
Yeah, so I'm just a fortunate son?
Everybody wants to be the chosen one
I'm on a mission
I'm on a mission from God

I went to Pensacola just to get an opinion
A perfect California get it straight in my mind
Take a new road, take a new direction
Maybe going to get it right
But I've made up my mind
Yeah I've made up my mind
I wanna feel important
I wanna feel alive

Don't talk to me
Don't talk to you
You know I'm lying
You know the truth

Yeah, I'm on a mission from God
It sounds kinda crazy but I like it a lot
I'm an answer to the man up above
It's me he's speaking of

Yeah, so I'm just a fortunate son?
Everybody wants to be the chosen one
I'm on a mission
I'm on a mission from God

If I could save the world
I might do it
I just might do it
Now it's up to me
So are you worth it?
Are you really worth it?
If I can save the world

Yeah I'm on a Mission From God
Sounds kinda crazy but I like it a lot
I'm an answer to the man up above
It's me he's speaking of
On a mission, on a mission, on a mission, a mission, a
mission, mission, mission, mission
Yeah I'm on a mission
