We've been playing now for much too long
And never gonna dance to a different song
I'm gonna scream and shout till my dying breath
I'm gonna smash it up till there's nothing left
Ooh smash it up
Smash it up smash it up
Ooh smash it up
Smash it up smash it up
People call me weird, oh it's such a shame
Maybe it's my clothes, must be to blame
I don't even care if I look a mess
Don't wanna be a sucker like all the rest

Smash it up
And you can keep your crystal glasses
Smash it up
And you can see a very dead-way end
Smash it up
And you can stick a frothy lager
Smash it up
Up the fuck with your lesson
We've been playing now for much too long
And never gonna dance to a different song
I'm gonna scream and shout till my dying breath
I'm gonna smash it up till there's nothing left
And everybody's smashing things down
I said everybody's smashing things down
