c inside

if you need a number, you can call on me

cause if you want some loving, you gt it all for free

but if you think it's over and you've had enough

put your hands in my reach and I'll pick you up

cause if you think it's over and you run for cover

you try and hide open up cause I can see inside

no you don't want mercy and you can't say please

cause you took a journey now you're on your knees

but the trip ain't easy cause I've been t here too

but I'll keep on giving until I'm breaking through

cause if you think it's over and you run for cover

you try and hide open up cause I can see inside

open up cause I can see inside

cause if you think it's over and you run for cover

you try and hide open up cause I can .
