

Oh Romeo

"Lookin' Out"

Visit "[Lookin' Out](#)" on MotoLyrics.com

I've looking for sometimes
Searching for a love that's right
I've looking out
looking love
looking everywhere I go

I don't care what people say
I 'm looking after you
I don't care what people say
I really, really believe you!

I'm looking in the city streets
searching in my fantasy
checking out the night clubs in
looking for a love that's me

I don't care what people say
I need it, need it a far away
I've looking out
looking love
looking everywhere I go

I don't care what people say
I've been looking after you
I don't care what people say
I really, really believe you!

shooting and fly away
stay by a baby

I've looking for sometimes
Searchin' for a love that's right
I've looking out
looking love
looking everywhere I go

I don't care what people say
I'm looking after you
I don't care what people say
I really, really believe you!

I'm looking in the city streets
searching in my fantasy
checking out the night clubs
looking for a love thats me

I don't care what people say
I need it, need it a far away
I've looking out
looking love
looking everywhere I go

I don't care what people say
I 'm looking after you
I don't care what people say
I really, really belive you!

shooting and fly away
stay by a baby

I've looking for sometimes
Searchin' for a love that's right
I've looking out
looking love
looking everywhere I go

I don't care what people say
I'm looking after you
I don't care what people say
I really, really belive you!
