This is what we wanna do  
it's a kick to see this music gets to you  
it's a crazy industry but so damn free  
there's a lot of kids around  
who always have to judge commercial sound  
it's the same as they judge our music you see

in '94 the crowd jumped around  
in '95 punk hits the charts  
in '96 it would be dead people told me  
you can't stop us!  
'97, '98, '99 man who cares  
to us this music's fine, don't stop  
you can't stop us!

if it's not o.k. with you  
we like other kinds of music too  
then man go find out what music's all about

most of the critics refuse to listen good to this  
'cause it's done before  
oh my god, music can't be new anymore

When we play you see we feel fucking free  
and jump like bruce lee, our fatality  
so just let us be where we wanna be  
don't discuss this shit with me.
