[Music:Smirnoff,Magnani - Melody:Tordiglione -  
Lyrics:Magnani]

So my life was fading to an end  
With that grim sense of nothing surrounding me  
My existence flowing away  
Lost in the sea of Oblivion

My breath was frozen in time  
Becoming eternal  
A fallen angel's feather  
Relied on me falling still

Through the door of the human desire  
I saw the land we are all looking for  
Along our lives  
There's no truth, there's no lie  
Simply it is  
Now and forever will be  
An angel there staring at me  
By that door he waits for me

In the silence, silent it came  
A sudden stream of consciousness  
Like a river flowing aside  
From deep within, beside me

A candle's light can be strong  
Enough to light the deepest dark  
The human will it can bring out  
So strong to lead us the way

Through the door of the human desire  
I saw the land we are all looking for  
Along our lives  
There's no truth, there's no lie  
Simply it is  
Now and forever will be  
An Angel there staring at me  
By that door he waits for me

Feelings that I can't tell heaven and hell at the same

time  
It's so cold here  
Can't keep so much inside my thoughts are flowing out  
Away from their nest to my chest

There's no black, there's no white  
But all in between  
The shades of a grey you can see  
The colours are just a fantasy  
Give my soul another me  
There's so much that's left to say  
Ain't gonna rush  
Need time to find the right words  
Need time to find the right way  
Need someone to stop my rove
