Divide street force
Divide street force will win the wars

We were the ones to win
You are the grateful
We were the ones to lose
You are the spiteful

Show us the way
We shall never fall
Show us the way
We shall never fall

Divide street force
Divide street force will win the wars

Get up, no more patience
No more patience, no more patience
No more patience

You are the one to win
You are the ignorant
You are the one to judge
You are the fortunate

You're the one
We shall never fall
You're the one
We shall never fall

Divide street force
Divide street force will win the wars

[Incomprehensible] the wars of his life
