Until the day that I'm with you  
To my heart I've got to be true  
So many times how hard I've tried  
Don't you know how it feels inside  
You take control of my body  
You take control of my mind  
Yeah baby I've got a feeling  
And it feels so right

Chorus:

You got the magic touch that takes me through the  
night  
You got the magic touch that makes me feel alright  
Give me your magic kiss oh baby can't you see  
You've got to, you've got to put your touch on me

Magic touch, magic touch, put your touch on me  
Magic touch, magic touch

I think about you all the time  
All through the day all through the night  
I just can't get you out of my mind  
Don't you know how it feels inside  
You take control of my body  
You take control of my mind  
Yeah baby i've got a feeling  
And it feels so right

Chorus

Magic touch, magic touch,  
Take control of my body, take control of my mind  
Magic touch, magic touch

Chorus (3x)

Magic touch, magic touch, put your touch on me  
Magic touch, magic touch
