"Real Life"

Visit "[Real Life](#)" on MotoLyrics.com

Certain, genuine, almost positive
Right definite, sincere
Broke vitality, truth humanity
That's not what's happening here
ooh, ooh, this is real life
ooh, ooh, this is real life

I'm sitting here waiting, wondering where you been
Don't you know you're late again?
Sitting here thinking, figuring you would call
The phone don't ring at all

I'm not a girl whose living in a fantasy world
So tell me are we fictional, fact
Cause right now I gotta know (gotta know)
I wanna know where we're at

Get a grip baby we're no rehearsal
It's not a game, we are not playing virtual
When are you going to wake up and realize
This is real life, this is real life

?Have honey? would never be true love
I can almost never be in love
I tell you straight up, not telling you twice (you twice)
This is real life, uh, this is real life (real life)

You're blowing hot and cold
And I don't know where you're coming from
What planet are you living on?
And I'm not the girl of a type who will forgive and
forget
(Have I, Have I got you attention yet?)

I'm not a girl whose living in a big dream world
This time there's no compromise
So if you want me for good, you better open your eyes

Certain, genuine, almost positive
Right definite, sincere
Broke vitality, truth humanity

That's not what's happening here
ooh, ooh, this is real life
ooh, ooh, this is real life

Get a grip baby we're no rehearsal
It's not a game, we are not playing virtual
When are you going to wake up and realize
This is real life, this is real life

?Have honey? would never be true love
I can almost never be in love
I tell you straight up, not telling you twice (you twice)
This is real life, uh, this is real life (real life)

Get a grip baby we're no rehearsal
It's not a game, we are not playing virtual
When are you going to wake up and realize
This is real life, this is real life

?Have honey? would never be true love
I can almost never be in love
I tell you straight up, not telling you twice (you twice)
This is real life, uh, this is real life (real life)

Get a grip baby we're no rehearsal
It's not a game, we are not playing virtual
When are you going to wake up and realize
This is real life, this is real life

It's up to you, come on

Get a grip baby we're no rehearsal
It's not a game, we are not playing virtual
When are you going to wake up and realize
This is real life, this is real life

?Have honey? would never be true love
I can almost never be in love
I tell you straight up, not telling you twice (you twice)
This is real life, uh, this is real life (real life)

This is real life
