"Fix You"

And if we go right now
We can leave this town, we break
And if we go right now
We can leave this town, escape

Don't know how it's gonna end
How far you gonna bend
I'm never gonna walk away
God, I wish you let me in
I've forgiven all your sins
Stop pushing, why you're pushing away?

I can't stop how I'm feeling
It's like I need you
And if you let me, I can fix you
I can't stop how I'm feeling
It's like I need you
And if you let me, I can fix you

Let me fix you

And if we go right now
We can leave this town, we break
And if we go right now
We can leave this town, escape

I'ma boogie from the ground
To higher than the clouds
I can see it in your soul
If you only knew your worth
Come and look what you deserve
Every piece of you makes me whole

I can't stop how I'm feeling
It's like I need you
And if you let me, I can fix you
I can't stop how I'm feeling
It's like I need you
And if you let me, I can fix you

Let me fix you

And if we go right now
We can leave this town, we break
And if we go right now
We can leave this town, escape

Let me fix you

I can't stop how I'm feeling
It's like I need you
And if you let me, I can fix
Let me fix you
