Arose from the second triangle burning my soul.....
Gehenna is the place for burning, takes me away.....
Order of the golden dawn summoning Beelzebub.....
Give your eternal loyalty demon of death and evil.....

God is dead and always has been.....
Be your god and devoutly worship yourself.....
To thee we confess..... Shut up and hold your tongue.....
Justify your beliefs and forsee reality.....

I am the personification of cosmic force.....
And the creator of all living things.....
Even the gods bow at my feet.....
To lick the blood from my sword.....

Book of revelations I forsee the fallen angels rise
To destroy the ministers of god.....
Strong as a lion in the moon of the woods.....
Great beast come, gods withdraw obey your master!
Glory and praise to you Satan
In the heights of Heaven where you once reigned
In the depths of Hell where you dream in silence
Sound the trumpets into the crimson sky.....
I am awake! I am awake! I am awake!

Scrolls of a millennium past unfold.....
In the blackness of the moonlight.....
Condemn Christianity forever.....
Embrace the wisdom of Lucifer!

Burning churches to the ground.....
Unearthly desolation, all is black.....
Crackling flames wither away.....
Bones stand tombless, as their flesh.....
All remains covered by dust.....
Funeral piles, the war must go on

Hoofs of steel rape the ear.....
Everlasting over the hills.....
White light legions in mortal fear.....
Cast into the fire weakness absorbs the flames
