You trust your friends
Yea trust your friends
You're gonna find out soon

Now Emily
Oh, sweet Emily
We are all with you!

It's gonna take a little time
'til things are straight
But trust me this is just life
You'll be okay
This is just, this is just

Pretty soon you're gonna find
The only way
To live is to realize
That things have changed
Change, change, change

Brad trust me
Brad trust me
You can sink or swim
Now please just stop
Yeah, you must stop
Or you'll end up like him

It's gonna take a little time
'til things are straight
But trust me this is just life
You'll be okay

Pretty soon you're gonna find
The only way
To live is to realize
That things have changed
Change, change, change

Don't be afraid
Things change, always
Don't be afraid

It's your life, be brave

It's gonna take a little time
'til things are straight
But trust me this is just life
You'll be okay

You'll be okay! You'll be okay!

Pretty soon you're gonna find
the only way
to live is to realize
that things have changed

You'll be okay! You'll be okay

It's gonna take a little time
'til things are straight
But trust me this is just life
You'll be okay

You'll be okay! You'll be okay! You'll be okay!

Pretty soon you're gonna find
The only way
To live is to realize
That things have changed
