"Come To My Aid"

Visit "[Come To My Aid](#)" on MotoLyrics.com

Come to my aid, you're sweet as everything.

Come to my aid, I'd give you anything

I feel so betrayed by the people I love.

Come to my aid, it's you I'm thinking of.

Prouder than wild, sad enough to sing.

Come to my aid and care for social living.

Chorus:

Why are we liable to die for survival?

Why is our nation divided?

Come to my aid (repeat)

In the poverty stakes see just what it means

When welfare decimates you'd better care about your
fellow people.

-chorus-

Come on board
