High Fives, truly night jive
Living in the night time
Soul man, golden old man
Weathering the time sands
This whole rhythm gives me what I need
Praying hard as your lifetime
Praying hard as your lifetime
Praying hard as your lifetime goes by
White lines fooling my kind
living for the night time
Hold hands, home in old land
weathering the time sands
This whole rhythm gives me what I need
Praying hard as your lifetime
Praying hard as your lifetime
Praying hard as your lifetime goes by
