I've been a fool, talking to myself and no-one else

I play it cool, so cool that no-one ever understands me

Maybe one day someone will come

Now! Now

I didn't do the things I was supposed to do

You didn't move, you used me and I used you too

Maybe one day someone will come

Maybe one day someone will come

Why it's killing you, is a reason for yourself and no-one else

I couldn't move, you used it and it used you too

Maybe one day someone will come

Maybe one day someone will come
