Where do you want to go?

Are you sure of the road that you're on?

Who do you want to be?

All I know is the world deserves to be free

Let's pretend we're staring from the moon

Love is not only for the human

Look at the world you know

Do you believe it will go on?

Where do you want to go?

The things we take will only last for so long

In the end you know it's up to you

Love is not only for the human

Oh man, we are so many people

Living different lives under turbulent times

Oh man, we don't know good from evil

Looking through our eyes is the burden of our lives

Say can we tell for sure

The North and South will keep their snow on?

Say can the Earth endure

Do you really believe we can go on?

In the end you know it's up to you

Love is not only for the human

Oh man, we are so many people

Living different lives under turbulent times

Oh man, we don't know good from evil

Looking through our eyes is the burden of our lives

In the end God is the Universe

And the Universe is you
