Visit "[Thank You](#)" on MotoLyrics.com

I thank you for the things you have shown me

Thank you for the love of my life

So far anyway, now it's really really over

O God I really thank you baby

Most of all I thank you for your love

Like good people should do anyway

I thank you

I really thank you

All of my life

I really thank you

My souvenirs I hold them and remember

All the days for the rest of my life

Truth is I miss you in all the ways you will imagine

See me, feel me I wanna say

Most of all I thank you for your love

Like good people should do anyway
