A Kiss As Long As Eternity (Potseluy dlinoyu v
vechnost')

A kiss as long as eternity...
I am building bridges to you
I know you hear me
I want to get closer to you.
Where are you?
The halves, parts of the world
Are very much like two parts of the Moon
Hard in reality? Let's do it virtually!
Internets...

A kiss, kiss of mine is flying to you
To the world's end, with December snow
A kiss, kiss of mine is flying to you
Catch it and save it
Don't forget that I'm with you, my love!

A kiss as long as eternity
Between autumn and spring...
So incidentally
At three o'clock in the night
It is near you
The halves, parts of the world...
I'd like your news come into your dreams.
Hard in reality? Let's do it virtually!
Internets...

A kiss, kiss of mine is flying to you
To the world's end, with December snow
A kiss, kiss of mine is flying to you
Catch it and save it
Don't forget that I'm with you, my love!
