There's no need for me to pretend I know
I just think the way it goes
It's hard for me to believe
But I try it
I try it
I'm giving all that I have to give
I'm giving all that I have to live
I believe in God it's true
I believe in what he do

He doesn't stop us from doing our own thing
But that's the only thing I can't understand
Is why there's so much cruel in this land
And if cruel is acceptable
Then what's punishable
Is it alright
I believe in God in true
I believe in what he do

If there was a way
If there was a way
If there was way that I could give you 100% certainty
If there was a way
If there was a way that I could give you 100% certainty
I would

I'm looking for the certainty
Just like you believe
I believe in God and All I need to know is something
more then me
More then me
6 Billion people
6 billion people on this planet
1 billion more
6 Billion people on this planet
There's gotta be a reason in it
Reason in it

I believe in God it's true
I believe in what he do
