Equality I greet 'em in peace
Cause I'm up against my skin and the brotherhood east
The detriment of the ways
My heart bleed equates
Living in the middle of a none equal state so many
years
So many tears
I acknowledge my retreat so why disagree
6 and everything in between
Just imagine all the people if our people were free
If we come to our word and treated individuals
How we treat our own ministry
But this competition has be going insane
And I'm pardoning the days because you pardoning
the ways
You and I equivalent to many Days
To many ways
Many phases of our life
And raised into heavens in the sky
Heavens in the sky

Tribal drums
Ancient blood
Runs deeper than the center of a black hole
Explode in code
7 Profitz never leave our own kind behind
In the back of me millions march on mercilessly

Send our troops to war
Win metals and nobility
Drop loss mobility then they are instantly
Put with the addicts
Junkies, serfs and the peasants
Wouldn't wish it on anyone the life is unpleasant
Turn to resident drugs
They acting like thugs
And in they home town gets no groupie love
Say goodbye with peace
If I die it's infinity
I wrote it pray it breathe it
So we call it the trinity
Multiply understanding times that twice

Doubling the lyrics repeat breath of life
Raising a Christ But not infant Jesus
end of the parable or call it my thesis
Raising a Christ But not infant Jesus
end of the parable or call it my thesis

Tribal drums
Ancient blood
Runs deeper than the center of a black hole
Explode in code
7 Profitz never leave our own kind behind
In the back of me millions march on mercilessly
