"In Your Face"

You wanna be the way i am
But you could never understand
You shave your fuckin head
Then you turn your back
On your best friends

[Chorus]
It's not just in my head
It's in my heart
(it's in my heart)
And you're not gonna
Tear this one apart
The way you look it fits
How come your attitude is shit?
You say you do it your own way
But now i have the price to pay

[repeat chorus]

If i can give a fuck
You better start, so...
Use your head be aware
Give a fuck!
The same routine. fuck up again
You have no real regrets
But this is not just something
I can easily forget

[repeat chorus]

I can't believe you've come this far
Yet still so unaware
No cause no brains no fire inside
When will you learn to care
