Look at all the good things  
In this life that you have got  
You got security and comfort  
With a roof above your head

Yet you may find it easy  
To sit back and complain  
I know I've done it many times  
When I've felt no pain

But what is right  
If we can't look around and face the facts  
Just go through life  
Without a conscience or a care

It seems, it's dog eat dog  
'Til you're the one, they're all looking to bite  
Convinced that you're so justified  
But what is right what's justified

Now things are getting clearer  
Day by day, this feeling's strong  
And as we take a step  
It's hard to get along

And just when I think it's over  
Oh, I feel that drive begin  
'Cause it's not what I take  
But what I must put in in my life

But what is right  
If we can't look around and face the facts

Just go through life  
Without a conscience or a care

It seems, it's dog eat dog  
'Til you're the one, they're all looking to bite  
Convinced that you're so justified  
But what is right what's justified

And as the story's told  
The problem's harsh and cold  
We've got to end it  
With warmth inside the heart  
And knowledge that's a start

We've got to end it, yeah  
Push for change, why help suppress it?  
Realize you're not alone  
Honor life, why help regress it?  
Can't you see it starts at home?

But what is right  
If we can't look around and face the facts  
Just go through life  
Without a conscience or a care

It seems, it's dog eat dog  
'Til you're the one, they're all looking to bite  
Convinced that you're so justified  
But what is right what's justified
