Lori, Laura, Lori, Lorelei  
Sunshine in the night  
You're makin' everything worthwhile  
You know I need your love  
Pretty lady, help me now  
But do you love me  
I got to know, I've got to know now

Oh, long ago I had a lady  
She looked alot like you  
She lied to my face, yeah, such a disgrace  
I had to leave, couldn't play the fool  
Here I am again in love, baby  
I've been this way before  
I need your touch, need it so much  
I need you, I need you, I do

Baby baby, be my friend  
You know I'm gonna love you all I can

Before the dawn is breakin'  
I'm gonna change your mind, yeah yeah  
And you'll love me baby, come on love me  
Come on Lorelei

If you spent a lifetime thinkin' 'bout the day  
Would you know how many nights I've cried  
I see your face in my mind, I've tried but I just can't find  
A way, I need you bad  
Babe, you're tearin' me apart  
You know, you know I gave you  
Every little piece of my heart

Before the dawn is breakin'  
I'm gonna change your mind, yeah yeah  
And you'll love me baby, come on love me  
Come on Lorelei
