Published by chappell & co., ltd. - capac

As I walk along the lonely streets
I can't talk to the people that I meet
I see them come, and I see them go
I see them smile, and say hello

Come with me and take my hand
Ooh, fly away to another land, oh yes we will
Come with me and take my hand
We'll fly away to another land

Come over here little girl
And I'll show you another world
Where we can be free to do as we want
Live our lives as we please, and say what we like, oh

Come with me and take my hand, ooh
We'll fly away to another land
Come with me and take my hand, oh
And fly away to another land

There's so many things that remain to be done
And no one has thought of a way to begin
So follow me into my life

Come with me and take my hand (and take...)
Fly away to another land (fly away to another land)
Come with me and take my hand (ooh)
Fly away to another land (fly away to another land)
Come with me and take my hand (take my hand)
Fly away to another land (oh yes we will)
Come with me and take my hand (and take my hand,
take my hand)
Fly away to another land (yeah)
Come with me and take my hand
Fly away to another land
Come with me and take my hand
Fly away to another land
