Everynight i rock myself to sleep
Everynight i rock myself to sleep
Everynight i rock myself to sleep
Thinking about, you Thinking about you

And I wanna say its not the same since you went away
and its not right that you not here with me tonight

Everynight i rock myself to sleep
Everynight i rock myself to sleep
Everynight i rock myself to sleep
Thinking about, you Thinking about you

and its a crime just a lying wasting my precious time
im so lonely and im so blue thinkking abotu the things i
can do to you

Everynight i rock myself to sleep
Everynight i rock myself to sleep
Everynight i rock myself to sleep
Thinking about, you Thinking about you

And i wanna know dont you see how you hurt me so
going out of my head yeah down here in this empty
land

and its a crime just a lying wasting my preciouese time
im so lonely and im so blue thinkking abotu the things i
can do to you

everynight i rock.....

Everynight i rock i myself to sleep thinking about you
thinking about you
everynight i rock myself to sleep.... until fade
