(Myles Goodwyn/Jim Clench)

Published by Summerlea Music, Ltd. - BMI

Come talk to the band, and we'll tell you our plan
We've got alot to say
That we've worked for awhile, to develop a style
On tunes for you to play
We'll sing you a tune, we'll scream and we'll croon
Some rock 'n' roll for you
And we'll give you a rush, with a look and a touch
We'll rock the whole night through
So we never have to worry, and we'll never have to run
Our chance to have a party's just begun, oh yeah, oh
boy
The band has just begun

You can sing, you can dance, we can all take a chance
Come on, lets have some fun

Try if you will, to remember the thrill
That the band has just begun
And now you'll never have to worry, you'll never have to
run
The chance to have a party's just begun, oh yeah, oh
boy
The band has just begun, oh yeah

Come talk to the band, and we'll tell you our plan
We've got alot to say
And we've worked for awhile, to develop a style
On tunes for you to play
And now we'll never have to worry, and we'll never
have to run
Our chance to have a party's just begun, oh yeah, oh
boy
The band has just begun, oh yeah, oh boy
The band has just begun, oh yeah, oh boy
The band has just begun
