ASCAP

You tried so hard to please me, you have me on your
list

Just one more heart to play with, I know that you tried
your best

Well I'm not the kind to take it, I'll turn, I'll walk away
Cause you cast your spell upon me, but things won't
stay this way

I try to love you, I try to make you see
But everytime I turn around, you're walking out on me
I can't take it no more, I say

You're too hot (too hot), I've got my hands full
You're so hot (so hot), too hot to handle
It's so tough (so tough), there's nothin' left to try
I have a thing for your love, but we've both had enough
Because you're too hot to handle

They told me all about you, that I'd better watch my
step
I've had alot of girlfriends, but no one like you yet
I wanna be the only one, you say that you want the
same
But you're much too restless for me girl, I'm tired of
playin' games
The change surrounds you, can't you see it's all around
you
I know I can't take a chance, I won't go again
I can't take it no more, I say

You're too hot (too hot), I've got my hands full

You're so hot (so hot), too hot to handle
It's so rough (so rough), there's nothin' left to try
I have a thing for your love, but we've both had enough
Because you're too hot to handle

Your eyes, they dance with fire, the flames just tease
the soul

Your eyes concede a passion girl, but the blood in your
heart runs cold
I say I'm not gonna waste my time, I don't want you on
my mind
I said it's over now, we're through, I won't waste my
time no more with you
I try to love you, I try to make you see
But everytime I turn around, you're walking out on me
I can't take it no more, I say

You're too hot (too hot), I've got my hands full
You're so tough (so tough), too hot to handle
It's so rough (so rough), there's nothin' left to try
I had a thing for your love, but we've both had enough
Because you're too hot to handle (too hot), you're much
too hot for me
You're too hot (too hot), I can feel it girl, much too lazy
(too hot)
This boy is gone, it's time to run girl, you're too hot (too
hot)
You're much too hot for me, can't you see you're (too
hot)
I've had enough, gonna walk away now
