Published by Summerlea Music, Ltd. - BMI

Set yourself in the right direction, now what you gonna do

You hear me smartly callin', laughin', I know you
And if you find the mood's confusin', now don't you go astray

And in the mornin', you wake up laughin', what you gonna do

Work all day, work all night, yeah yeah

Work all day, work all night, yeah yeah

It's five in the morning, I feel like callin' you, somethin's on the way

I'm feelin' lazy, it still sounds crazy, it happens every day

But if I find the right direction, I'll know just what to do
And in the morning, I wake up laughin', what you gonna do

In my confession, I feel myself needin' you
And if I can see you, I'll give all my love to you
I feel my light shinin', feel myself callin' you
And now I can see you, I touch you, I feel you, ooh yeah

Bring me up, bring me down

It's five in the morning, I feel like calling you

Bring me up, bring me down

It's five in the morning, I feel like calling you

Work all day, work all night, yeah yeah

Work all day, work all night, yeah yeah

Work all day, work all night, yeah yeah

Work all day, work all night, yeah yeah
