You've been pushed  
And shoved around  
You been placed  
Inside the outside crowd  
All the things  
They said to try to hurt you  
They turn from you

You wonder  
What you did wrong  
To deserve this  
Life without love  
You dream that  
One day it will stop  
But that dream is gone

And all the stars, they shine your name  
And the heavens look down upon you  
Spread my wings and take you in  
But you threw it all away

Threw it all away x3  
Away (one, two)

You're angry  
You're mad at the world  
You can't take  
This anymore  
All the trust  
Was taken away  
From those who betrayed

And all the stars, they shine your name  
And the heavens look down upon you  
Spread my wings and take you in  
But you threw it all away

Threw it all away x3  
Away (three, four)

You have no idea how much you've been missing

You got tied up with anger with a clenched fist  
You want to strike back to those that have hurt you  
But to be virtuous you must have virtues  
If you hold on the the lfe you've been given  
Love will pour down from the face of heaven  
This is a gift, it's yours for the taking  
All you gotta do is choose to accept it

The stars, they shine your name  
And the heavens look down upon you  
But you threw it all away

Threw it away  
Yeah, you threw it all away x4
