### "I Believe"

Visit "[I Believe](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I hear You speak to me  
Child do not fear, only believe  
Every promise I made to you, I will keep

And You said I'd see today  
If I would believe what You say  
With all of my heart I'm trusting now that I receive

Cause You're not a man, You cannot lie  
All You have spoken, I claim it's mine  
You are almighty, Your name is true  
All of my faith is in You

I believe You have said  
Every single need it is met  
And You are taking me  
Into the land of promises  
You have kept all of them

I believe You have said  
You've given me every benefit  
I won't forget healing and forgiveness  
And Your righteousness  
I'm so blessed

Lord I contend today  
I'm earnestly fighting for the faith  
And I'm taking ground as I remain here on my knees

Cause You said it's gonna rain  
And I can't outrun Your flood of grace  
The Heavens are open, look again and you will see

You're not a man, You cannot lie  
All You have spoken, I claim it's mine  
You are almighty, Your name is true  
All of my faith is in You

I believe You have said  
Every single need it is met  
And You are taking me

Into the land of promises  
You have kept all of them

I believe You have said  
You've given me every benefit  
I won't forget healing and forgiveness  
And Your righteousness  
I'm so blessed

I confess  
I believe You have said  
Every single need it is met  
And You are taking me  
Into the land of promises  
You have kept all of them

I believe You have said  
You've given me every benefit  
I won't forget healing and forgiveness  
And Your righteousness  
I'm so blessed  
I confess I believe

I believe, every word that You say  
Father I know that it's true  
I believe, I believe in You  
Oh, every word that You say  
Father I know that it's true  
I'm so blessed

I believe, I believe, I believe  
I believe

Father I believe in You  
Forever and always I believe  
Your name is faithful  
Faithful and true  
That's why Father I'm so grateful to You
