Swing open wide you gate of God  
As I enter giving thanks  
Prepare the courts of the Lord  
I've come to give Him praise

I promise to empty myself  
Of worship He alone deserves  
In a passion that burns

Jesus, oh I really love You Lord.  
I found out what my heart is for,  
Everything in me's yearning for You more.  
Jesus, reaching out with all I am,  
Wanting You to understand  
I'll be coming back again  
And again to be with You.  
(Whoa whoa whoa)  
Just to be with You.

My heart keeps growing stronger  
Lifting up Your mighty name, my King  
All the pleasures that You've given me  
Here and now with You has become the greatest thing

Your presence so powerful  
All I can do is bow  
That's what my life's like now

Jesus, oh I really love You Lord.  
I found out what my heart is for,  
Everything in me's yearning for You more.  
Jesus, reaching out with all I am,  
Wanting You to understand  
I'll be coming back again  
And again to be with You.  
(Whoa whoa whoa)  
Just to be with You, yeah

Your presence so powerful  
All I can do is bow  
That's what my life's like now

Jesus, oh I really love You Lord.  
I found out what my heart is for,  
Everything in me's yearning for You more.  
Jesus, reaching out with all I am,  
Wanting You to understand  
I'll be coming back again  
And again to be with You.

Jesus, oh I really love You Lord.  
I found out what my heart is for,  
Everything in me's yearning for You more.  
Jesus, reaching out with all I am,  
Wanting You to understand  
I'll be coming back again  
And again to be with You.  
(Whoa whoa whoa)  
Just to be with You, yeah  
Just to be with You  
(Whoa whoa whoa)  
Just to be with You
