What has happened today
Still nothing for you
Still waiting for the day
We won't walk to the edge
A little further
So join us on the way
Again - yes, we'll do it once again
Again - that thing that no one understands
Again - we'll do it til the very end
'cause it feels so good to be forever wrong
Are we ready to sin
Provoke and crush them
A subatomic blast
We're the "small city pimp"
We'll kick you're ass in
Your ignorance won't last
Again - yes, we'll do it once again
Again - that thing that no one understands
Again - we'll do it til the very end
'cause it feels so good to be forever wrong
Again - we will do it once again
Again - that thing that no one understands
Again - we'll do it til the very end
'cause it feels so good to be forever wrong
Feels so good to be forever wrong
Let them go, she said
'cause they can't see themselves as
Being the ones who depend
Bring me home, i said
'cause i will do it all again
Again - yes, we'll do it once again
Again - that thing that no one understands
Again - we'll do it til the very end
'cause it feels so good inside
