I admit that not a lot of time had passed by  
But we decided that we would be together  
Everybody, they talked and had opinions, they did

And they had doubts about what we would become  
But I knew you were and you knew I was the one  
Over other people, no, we'd never make a fuss  
'Cause it will never be about them, just us

Nobody but us, only me and him  
We're the only ones that matter  
They know what we've got, only me and him  
So we never mind the chatter

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know what it is

There were moments not always so perfect  
But we know that's just the beauty of it  
Go through things and then we learn from them, oh

Honestly we can work each other's last nerve  
Then make up with the sweetest of making love  
And no one has to understand that, just us

Nobody but us, only me and him  
We're the only ones that matter  
They know what we've got, only me and him  
So we never mind the chatter

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know what it is

Nobody but us baby  
They can't take you, they can't take me  
They can't break us down no way  
We're not affected by what they say

Nobody but us baby  
(They know what we've got, only me and him)  
They can't take you, they can't take me  
They can't break us down no way  
(So we never mind the chatter)  
We're not affected by what they say

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know what it is

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know what it is

What it is that made us feel so good about it?  
What it is that made me go half crazy for?  
What it is that made him give it all to me?  
It's all about us, as long as we know

What it is that made us feel so good about it?
